Subject: Class 2 Hazardous Waste Permit Modification Final Issuance

Dear Mr. Staton:

On November 3, 2022, the Director of Ohio EPA approved a final Class 2 modification application for Clean Water Environmental, LLC (CWE) for its facility located at 300 Cherokee Drive, Dayton, Ohio 45417 in Montgomery County to increase the hazardous waste container storage capacity of Building E from 13,750 gallons, to 17,160 gallons. This is almost a 20% increase (19.87%) of facility-wide container storage capacity. This modified permit will allow CWE to make the requested changes. To issue this final permit, Ohio EPA determined that the modification application is complete and meets appropriate standards. The Agency did not receive any comments concerning this Class 2 modification application. Enclosed is the final permit that was issued by the Director on November 3, 2022. Please note that the permit remains in effect until it is renewed, withdrawn, suspended or revoked.

You are hereby notified that this action of the Director of Ohio EPA (Director) is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce the fee if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:
